Top Skills

Data Privacy / Cryptography
Java Native Interface (JNI)
Artificial Intelligence / AI Integration

Languages

Bengali (Native or Bilingual)
English (Full Professional)
German (Elementary)

Certifications

AI Fluency for students
Data Scientist Associate
Machine Learning Specialization
CS50x
Full Stack Development Certification

Aryan Das

EE @ NIT Silchar | Aspiring Data Scientist & ML Engineer | Programmer | Developer | CS50x | GSA 2026
Silchar, Assam, India

Summary

I'm Aryan Das and I'm from India. I just finished my 1st year of engineering majors in Electrical at NIT Silchar. I'm currently learning to code—not an expert yet, but picking up languages to enhance my future vision and prospects. That includes C++ and Python with libraries like Pandas, NumPy, Scikit-Learn, Matplotlib, and Seaborn, along with HTML, CSS, JavaScript, TypeScript, and frameworks like React, Node, Express, and Next... These languages are helping me a lot in building a strong foundation in Machine Learning, Data Science, and Full Stack Development... I plan to solve real-world problems and build useful solutions with my tech stack, and also create solutions in my core electrical field... I hold a CS50x certification from Harvard University and an Associate Data Scientist certification from DataCamp. I mention them not to impress, but because they represent a particular quality of attention — the kind that sits with a problem until the problem yields.I do not rush. Consistency, to my mind, is the only strategy that compounds. I am always glad to connect with those who build carefully and think rigorously.C++ | Python | DSA | AI / ML | CS50x — Harvard | Associate Data Scientist | NIT Silchar '29

Experience

Google Student Ambassador
Google Student Ambassador
July 2026 - October 2026 (4 months)
India

Education

National Institute of Technology Silchar

Bachelor of Technology - BTech, Electrical Engineering · (August 2025 - September 2029)

Gurucharan College (GC College), Silchar

Higher Secondary (Class 11 & 12), Science, Physics, Chemistry and Mathematics · (August 2023 - March 2025)
